Key to Inventory abbreviations: SC = full score; P = parts; Prod = Production (condensed) score; X = copy of original;

APS = Arranger's Planning Sheet (my own term) - a sketch that seems to have been used in planning the arrangement - DH.

A note on "missing?" titles: These titles appear to have been accounted for at some point, though they seem to have been misplaced - DH.

This inventory contains scores that fit into any of three categories: 1) scores attributed to and arranged by May (most fit into this category); 2) scores attributed to May on the album cover but arranged by one of his "right hand men" (May called this "farming out" an arrangement); and 3) scores arranged by May but attributed to another arranger (less common than the second category) - DH.
