Key to Inventory abbreviations: **SC** = full score; **P** = parts; **Prod** = Production (condensed) score; **X** = copy of original
APS: Arranger's planning sheet (my own term) - a sketch that seems to have been used in planning the arrangement

A Note on the "missing?" titles: These titles appear to have been present in the collection at some point, though they seem to now be misplaced - DH.

This inventory contains scores that fit into any of three categories: 1) scores attributed to and arranged by May (most fit into this category);
2) scores attributed by May on the album cover but arranged by one of his "right hand men" (May called this "farming out" an arrangement);
3) scores arranged by May but attributed to another arranger (less common than the second category) - DH.
