*Key to Inventory abbreviations:* **SC** = full score; **P** = parts; **Prod** = Production (condensed) score; **X** = copy of original  
**APS:** Arranger's planning sheet (my own term) - a sketch that seems to have been used in planning the arrangement

*A Note on the "missing?" titles:* These titles appear to have been present in the collection at some point, though they seem to now be misplaced - DH.

- This inventory contains scores that fit into any of three categories: 1) scores attributed to and arranged by May (most fit into this category);  
2) scores attributed by May on the album cover but arranged by one of his "right hand men" (May called this "farming out" an arrangement);  
3) scores arranged by May but attributed to another arranger (less common than the second category) - DH.
